

Service Pricing Sheet

What the ticket says vs what you keep

SERVICE

DATE

THE TICKET	AMOUNT
Service price	
– Backbar / product	
– Card processing fee	
= SERVICE NET	
– Rent this service owes	
= YOU ACTUALLY KEEP	
= TRUE MARGIN %	

HOURS IT TAKES

RENT / CHAIR-HOUR

= YOUR REAL \$ / HOUR

BEFORE YOU PRICE THE NEXT ONE

- Your chair charges rent by the hour, booked or not — every service owes its share.
- A \$5 raise is almost pure profit. A \$5 discount is almost pure loss.
- If the true margin is under your goal, the answer is price or time — never volume.

Chair Cost & Break-Even

An empty chair still charges rent
